MICHIGAN STATE UNIVERSITY RETIREMENT PLANS

Investing for retirement is one of your most important financial goals. At Michigan State University, we're dedicated to offering you the best possible retirement plans for meeting your long-term investing needs, and we encourage you to take full advantage of the retirement savings vehicles available to you.

WHY SAVE FOR RETIREMENT?

Are you on track to living the life you want after you stop working? Many experts estimate that you may need 85% or more of your annual pre-retirement income to meet expenses each year in retirement. However, the typical working American household is on track to replace only about 58% of its income. Facing rising health care costs, inflation, and a retirement that may last 30 years or more, you may need to save more to enjoy the retirement lifestyle you desire.

Michigan State University is proud to bring you a program to help you prepare for the retirement you want to have. The University offers [Fidelity](#) and [TIAA](#) as providers of administration, recordkeeping and investment options for each of the Michigan State University Retirement Plans. Both companies offer resources and tools to help participants plan their investment strategy.

The University's 403(b) Retirement Plan includes the [MSU 403\(b\) Base Retirement Program](#) and the [MSU 403\(b\) Supplemental Retirement Program](#). These programs, as well as the [MSU 457\(b\) Deferred Compensation Plan](#) are designed to help you invest more money today to help you have the income you need during your retirement years. Consider making contributions and see how investing even a small amount can add up over time.

The 403(b) Retirement Plan also includes an additional University-paid contribution for benefits eligible support staff employees hired July 1, 2010 and later. The University contribution is 0.5% of eligible earnings per pay period to an account at Fidelity, and increases to 0.75% after achieving 120 vacation service months of employment. This contribution begins automatically with the support staff employee's first paycheck into a 403(b) account at Fidelity and an age appropriate Target Date Retirement Fund investment option. Once the first contribution has been made and the account is opened, the employee can log into the account at <http://www.netbenefits.com/msu> or contact Fidelity to change the investments and designate a beneficiary. For more detail, please see the [403\(b\) Retirement Plan Policy](#).

This enrollment guide provides you with an overview of your Retirement Plan options. In the following pages, you can learn more about:

- The 403(b) Retirement Plan and 457(b) Deferred Compensation Plan offered
- Your investment options

Michigan State University, through the guidance of its retirement plan investment consultant Aon Investments USA, has designed the four-tier structure below. MSU will review, monitor and change as needed the investments offered in the first three tiers, which are considered the “core investments”. Mutual funds available in Tier 4 will **NOT** be reviewed by MSU, and individuals choosing to utilize the investments in this tier need to realize they are assuming greater responsibility.

Tier 1: Pre-Mixed Target Date Retirement Funds

Target date retirement funds are designed for investors who want a simple yet diversified approach to investing. The target date retirement funds offer a blend of stocks, bonds, and short-term investments within a single fund. The target date retirement funds have an asset allocation based on the number of years until the fund’s target retirement date. These funds are designed for investors expecting to retire around the year indicated in each fund’s name. The investment risks of each target date retirement fund change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after the target dates.

You may want to consider a Tier 1 option if you prefer a “hands-free” approach to investing and want to leave the portfolio allocation decisions to the fund’s professional management team.

An age appropriate target date retirement fund is the default investment option for those that do not choose their investments prior to the first contribution. Employees will have the ability to change or adjust the investments at any time after the first contribution is made.

Tier 2: Index Funds

Index funds, or passively managed funds, consist of a range of broadly diversified options across all the major asset classes that are not dependent upon the success of a particular investment fund manager. Index mutual funds seek to match the performance of a market benchmark at a low cost. These options provide the flexibility to build your own strategy to meet your needs and are for those who want to assume a greater involvement in the management of their investments.

Employees who seek broad diversification in investment markets at a low cost may want to consider a Tier 2 investment option.

Tier 3: Actively-Managed Funds

Actively managed funds typically have higher fees than index funds. This is because actively managed funds seek to outperform the market, while index funds seek to match the market. (Actively managed funds may also underperform the market.)

Employees who are comfortable with the fees and volatility associated with active investment management may want to consider a Tier 3 investment option.

Tier 4: Self-Directed Brokerage Account

This tier consists solely of a self-directed brokerage window. With a self-directed account you have the option of investing in thousands of mutual funds from hundreds of available mutual fund families. When you open an account, you take sole responsibility for overseeing and managing your investments in that account. Some mutual funds offered

through the self-directed brokerage account may have no additional fees, some may have transaction fees, and some may have sales expenses or loads. You make all investment decisions and pay all fees associated with maintaining the account.

Participants who seek to more broadly diversify their retirement account assets and believe they have the requisite knowledge to invest outside of the “core” menu of funds may want to consider establishing a self-directed brokerage account. **Please be aware that MSU is NOT monitoring any of the investments in the Tier 4 Self-Directed Brokerage Account, and individuals investing in the Brokerage Account take sole responsibility for their decisions.**

The following are items that should be considered when selecting investments from the Fidelity core investment menu:

- You are not permitted to make a direct exchange from the New York Life Guaranteed Interest Account to the Vanguard Federal Money Market Fund – Investor Shares (considered a “competing fund”). Before exchanging between these funds, you must first exchange to a “non-competing” fund for 90 days. While these requirements may seem restrictive, they are typically imposed by issuers, such as insurance companies, banks, or other approved financial institutions as a condition for issuing investment contracts to retirement plans. There can also be surrender charges when withdrawing from this investment options; please contact Fidelity for more information at 800-343-0860.
- Some mutual funds collect redemption fees from investors when shares of the fund are sold prior to the expiration of a holding period as specified in a fund's prospectus. These fees are calculated on a percentage basis based on the value of the shares being redeemed. The fees are retained by the fund and are intended to discourage market timing and excessive trading. The holding period and fee percentage differs depending on the fund. This information is outlined in a fund's prospectus and may be shown on a fund's fact sheet.

By investing your contributions at Fidelity, you have access to a range of investment options, all categorized in an easy-to-understand format.

For more information regarding the investment options available in your plans, including a risk spectrum for levels not shown above, please visit <http://www.netbenefits.com/msu> or call 800-343-0860.

An investment in a money market fund is not insured or guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in these funds.

Investments in smaller companies may involve greater risk than those in larger, more well-known companies.

Foreign investments, especially those in emerging markets, involve greater risk and may offer greater potential returns than U.S. investments. This risk includes political and economic uncertainties of foreign countries, as well as the risk of currency fluctuation. In general, bond prices rise when interest rates fall, and vice versa. This effect is usually more pronounced for longer-term securities.

Before investing in any mutual fund, please carefully consider the investment objectives, risks, charges, and expenses. For this and other information, call or write Fidelity for a free prospectus or, if available, a summary prospectus. Read it carefully before you invest.

Investment, insurance and annuity products are not FDIC insured, are not bank guaranteed, are not bank deposits, are not insured by any federal government agency, are not a condition to any banking service or activity and may lose value. You should consider the investment objectives, risks, charges and expenses carefully before investing. Please call 877-518-9161 or go to <http://www.tiaa.org/public/prospectuses/index.html> for a current prospectus that contains this and other information. Please read the prospectus carefully before investing.

Annuity account options are available through contracts issued by TIAA or CREF. These contracts are designed for retirement or other long-term goals, and offer a variety of income options, including lifetime income. Payments from the variable annuity accounts are not guaranteed and will rise or fall based on investment performance. Mutual funds may not offer the range of income options available through annuities.

The following footnotes are related to the TIAA Core Investment Menu on the previous Page:

⁴ An investment in the CREF Money Market Account is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

⁵ Any guarantees under annuities issued by TIAA are subject to TIAA's claims-paying ability. TIAA Traditional Annuity is a guaranteed insurance contract and not an investment for federal securities law purposes.

⁶ Funds that invest in foreign securities are subject to special risks, including currency fluctuation and political and economic instability.

HOW TO ENROLL

The following are instructions to start your contributions to one of the approved vendors (Fidelity or TIAA):

1. To complete enrollment go to [EBS Portal](#)
2. Login in with your MSU NetID and password (including the two-factor authentication security code)

For assistance with enrolling in a retirement account, review the [Enroll or Make Changes to Retirement Plans webpage](#) for more detail and instructions. Also, click the question mark “?” for help on any page in EBS, or see the [EBS Help Homepage](#).

After you complete the process to select your vendor in the EBS system, you can choose whether to contact the vendor directly to open your account with them and make fund selections, or you can wait for MSU to do it for you. MSU will provide the necessary information to the vendors you selected in the EBS system for them to open your new account if you have not already done so, and your contributions will be directed to an age appropriate Target Date Fund. However, if you would like to open your new account with your selected vendor now, start here and complete the following steps.

1. Enroll with the vendor of your choice.

Fidelity: To enroll in your Fidelity account, please visit <http://www.netbenefits.com/msu> and click “Enroll”. For additional information about the online enrollment process, click “Enroll” in the “Get Started” section of the website. You can also contact Fidelity by calling 800-343-0860.

TIAA: To enroll in your TIAA account, please visit <http://www.tiaa.org/msu>. Click on the “Ready to Enroll” button and follow the instructions. You can also call TIAA 800-842-2252, Monday through Friday, 8:00 a.m. to 10:00 p.m. and Saturday, 9:00 a.m. to 6:00 p.m. (ET).

2. Designate a Beneficiary for each of your accounts.

Any assets distributed from your 403(b) plan or governmental 457(b) plan will be taxed as ordinary income in the year withdrawn; if you are under age 59½ at the time of the distribution, a 10% early withdrawal penalty may apply to any amounts which were rolled into the plan from an IRA or a plan other than another governmental 457(b) plan. If the distribution is eligible to be rolled over, but is not directly rolled over to an eligible plan or IRA, 20% mandatory withholding of federal income tax applies. Federal income tax will not be withheld from governmental 457(b) plan assets if an eligible plan-to-plan transfer is made to another employer's 457(b) plan that accepts the transfer.

Be sure you understand the federal and state tax consequences of any distribution before you initiate one. You may want to consult your tax adviser about your situation.

Unless otherwise noted, transaction requests confirmed after the close of the market, normally 4 p.m. Eastern time, or on weekends or holidays, will receive the next available closing prices.

Be sure you understand the plan guidelines and impact of taking a loan before initiating a loan from your plan account.
