

Enterprise Business Systems Compatibility Matrix

Compatibility Testing Summary Table (last updated: December 2022)

Tested Operating System and Browser Combinations	HR/Payroll & EBS Portal: SAP	Finance: KFS, MM, KCRA, Marketplace	ADS: Cognos/BI	Compatible with all EBS Systems
General/Overall Notes Note A	Note HR1			
Microsoft Windows 10^, Firefox ESR 102 Note B	Yes	Yes	Yes	Yes Note B
Microsoft Windows 10^, Google Chrome 107	Yes	Yes	Yes Note ADS1	Yes Note ADS1
Microsoft Windows 10^, Edge 107	Yes Note HR2	Yes	Yes Note ADS2	Yes (see note to the left)
Mac OS 12 (Monterey), Safari 15 Note HR3	Yes Note HR4	Yes	Yes	Yes Note HR4
Mac OS 12 (Monterey), Firefox ESR 102 Note B	No	Yes	Yes	No
Mac OS 13 (Ventura), Safari 16 Note HR3	Yes	Yes	Yes	Yes
Mac OS 13 (Ventura), Firefox ESR 102 Note B	No	Yes	Yes	No

Table 1: EBS Application Notes are on page 2

^ Latest Windows 10 Operating Systems tested are versions 21H2 and 22H2 (November 2021 and October 2022)

Using this Matrix:

- Find your Operating System and browser and move right across the row.
- Next, look down the column of a specific EBS application for compatibility status and notes.
- A “Yes” indicates OS/browser combination is tested & supported for that EBS application.
- Refer to footnotes (next to “Yes”) for additional support information. Browser/OS combinations listed on this page are the only ones tested and supported for EBS.
- Currently, best EBS results occur using Firefox Extended Support Release (ESR) with Windows, or Safari with MacOS.

Compatibility Notes: General

- A. EBS Compatibility Testing occurs semi-annually, and for the most current versions of Windows and Apple Operating Systems (OS) and web browsers that are officially supported by EBS application vendors. Users with older OS and browser software versions should refer to their local technical support area for upgrade information and options.
- B. Only the “Extended Support Release” (ESR) version of Firefox is supported. For download link please click here: [Firefox ESR download](#).

Compatibility Notes: Analytics and Data Solutions (ADS/Cognos)

ADS1. This OS/browser combination is not supported for Cognos Query Studio.

ADS2. This OS/browser combination is not supported for the Cognos Query Studio or Report Studio Prompt Page.

Compatibility Notes: Finance (KFS, KCRA, MM, Marketplace)

No compatibility issues/notes at this time.

Compatibility Notes: Human Resources/Payroll (EBS Portal, SAP)

HR1. Incognito, InPrivate and Private Browsing are not supported for SAP GUI for HTML applications when working with document uploads or downloads.

HR2. Only IE mode on the Edge browser supports Adobe Reader DC, needed to use Adobe Interactive Forms [such as some "HR/Payroll Forms & Cost Redistributions"]

HR3. Safari is the only supported browser on a Mac. HR/Payroll functionality not supported by Safari requires adding a virtual Windows environment using VMware software (only option).

HR4. MacOS 12 (Monterey) **must be on version 12.1** or higher to use HR forms. The initial 12.0 version of Safari has known performance issues where the Safari browser freezes up.
