Apple macOS 15 (Sequoia), Firefox ESR 128 <u>Note B</u>	No <u>Note HR2</u>	Yes	Yes	No <u>Note HR2</u>
Apple macOS 14 (Sonoma), Safari 17 <u>Note HR2</u>	Yes	Yes	Yes	Yes
Apple macOS 14 (Sonoma), Firefox ESR 115 <u>Note B</u>	No <u>Note HR2</u>	Yes	Yes	No <u>Note HR2</u>

Table 1: EBS Application Notes are located on page 2

^ Latest Windows 10 Operating Systems tested is version 22H2 (released October 2022); this is the latest version available from Microsoft

Using this Matrix:

- Find your Operating System and browser and move right across the row. Look down the column of a specific EBS application for compatibility status and notes for the OS/Browser.

- "Yes" status indicates tested OS/browser combination is supported for that EBS application.

- Refer to underlined/linked Notes in cells above for additional support information by application.

- ***Browser/OS combinations listed here are the only options officially tested by MSU for EBS.*** Other OS/Browser version(s) / combination(s) could function properly in EBS, but technical assistance is not available for any unlisted option(s).

- Currently best EBS results occur using Firefox Extended Support Release (ESR) browser with Windows, and Safari browser with macOS.

Compatibility Notes: General (Note A and Note B)

A. EBS Compatibility Testing occurs annually, and for the most current version(s) of Windows and Apple Operating Systems (OS) and web browsers that are officially supported by EBS application vendors. Users with older OS and browser software versions should refer to their local technical support area for upgrade information and options.

B. Only the "Extended Support Release" (ESR) version of Firefox is supported. Download link located here: <u>Firefox ESR download</u>. Please refer to local technical support area for installation assistance.

Compatibility Notes for Analytics and Data Solutions (ADS/Cognos)

ADS1. This OS/browser combination is **not supported** for Cognos Query Studio.

Compatibility Notes for Finance (KFS, KCRA, MM, Marketplace)

No compatibility issues/notes currently.

Compatibility Notes for Human Resources/Payroll (EBS Portal, SAP)

HR1. The use of "Incognito", "InPrivate" and "Private Browsing" modes in web browsers will prevent the upload and download of documents in many applications.

HR2. Safari is the only supported browser on a Mac. HR/Payroll functionality not supported by Safari requires adding a virtual Windows environment using VMware software (only option).
