

Cariloop Support: What to Expect

Cariloop provides caregiving guidance and resources for members and their families caring for children, aging parents, or loved ones with complex needs. Members are paired with a dedicated Coach who helps them understand care options, research resources, and navigate caregiving decisions.

Ways Cariloop Can Help

Adult and Eldercare Support

- ♥ Researching in-home care providers, assisted living, memory care, or skilled nursing options
- ♥ Helping families understand dementia, chronic illness, and aging-related care needs
- ♥ Guidance navigating Medicare, Medicaid, estate planning, and community support resources
- ♥ Identifying services such as transportation, meal programs, or respite care

Parenting and Childcare Support

- ♥ Identifying regular child care and backup care options
- ♥ Guidance to address developmental concerns or diagnoses
- ♥ Helping families find activities, camps, and resources that support development and well-being
- ♥ Locating medical providers for ongoing family healthcare, including PCP, physical and occupational therapists, dentists, and more

Education and School Support

- ♥ Guidance on Individualized Education Programs (IEPs) and 504 plans
- ♥ Preparing families for conversations with teachers and school staff
- ♥ Understanding school-based resources and supports available to their child
- ♥ Provide step-by-step guidance for FAFSA, college applications, and scholarships

What Cariloop Does Not Do

Medical Care and Diagnoses: Care Coaches do not diagnose medical conditions or provide medical treatment. Medical decisions should always be made in partnership with healthcare providers.

Legal or Financial Advice: Cariloop does not provide legal, tax, estate planning, or financial advice. Advisors and licensed professionals remain the best resource for these decisions.

Emergency or Crisis Services: Cariloop is not an emergency response service. In urgent situations, families should contact emergency services or consult with the appropriate medical professionals.

Hiring Caregivers for Families: Cariloop does not hire, employ, or place caregivers, childcare providers, or medical professionals. Cariloop can research and identify options, but families select and contract with providers directly.

Decision-Making Authority: Coaches provide information and guidance, but all care decisions remain with employees and their family.
